11. Packing the Track

11.1 All persons packing the track must sign in at the pit gate as a driver.

11.2 All persons packing the track must follow packing directions from track workers.

12. Racing Rules

12.1 Pit speed limit is 10 miles per hour.

12.2 All cars returning to the pit area under power must use designated pit entrance.

12.3 In the event a race is cancelled after 50% completion, it will be scored completed.

12.4 All cars receive one push off per event. If a second push off is needed, the car must start at the rear of the lineup. Red flag and safety stops excluded. **All safety stops should be on the front chute at the flag stand area.**

12.5 Any qualified car that did not start at the original start of the event and was not replaced by an alternate car may join the event at the rear on the next race stoppage.

12.6 Drivers causing two stoppages in a single event will be disqualified for event.

13. Flags

13.1 Green Flag

13.1.1 The green flag will indicate the start or restart of an event. After the cars are lined up in the correct order, the (yellow) traffic lights will be turned off; this indicates the race will start on the next exit out of turn four. In the event of a false or poor start, the yellow caution light will come on as the leaders reach the backstretch. The start will then be reattempted.

13.1.2 If one or both front row starters jump the start, they will be moved back a row for the next start.

13.1.3 Any car(s) advancing positions before the start or before the cone on a restart will be penalized two positions for each position gained. Penalty will be assessed at the next race stoppage or end of the event.

13.1.4 Any driver that hits the cone on a restart will be put to the back immediately unless the driver is avoiding a collision. A second infraction will result in disqualification. If a driver is alongside the car in front of him at the cone he must let the car back in front of him before the exit of turn 2 or be penalized for jumping.

13.1.5 Restarts after one lap is completed will be single file. No gaping or passing before you pass the cone.

13.2 White Flag

13.2.1 The white flag indicates one lap remaining in the event.

13.2.2 Should the race be stopped on the last lap, the restart will consist of two laps at green, white and then checkered.

13.3 Black and White Checkered flag

13.3.1 A checkered flag will indicate the end of an event.

13.3.2 If the leader receives the checkered flag and the race is stopped before all cars cross the finish line, the race will be scored complete. The cars crossing the finish line before the stoppage will be scored accordingly, the remaining cars will be scored as they had completed the previous lap. Cars involved in the stoppage will be scored last on their respective lap.

13.4 Yellow Flag

13.4.1 A yellow flag condition is considered a race stoppage. Cars will slow to a pre-race speed and maintain a single file line. Cars out of position will be advised by track officials **and / or over the Raceceiver frequency** where to line up.

13.4.2 If a pace truck is on the track, **no cars are allowed to pass** it without permission. Violators will be sent to the rear of the field or disqualified.

13.4.3 Cars entering the work area during a yellow flag condition, that complete the work before the race is ready to resume will be allowed to restart at the rear of the lineup. Lineup will be in the order they return to the track.

13.4.4 Cars involved in the race stoppage that go to the work area will be given the time it takes the pace truck to complete two laps past the flagman to make repairs. The laps begin when the last car involved arrives in the work area. Lineup will be in the order they return to the track.

13.5 Red Flag

13.5.1 A red flag condition is considered a race stoppage. Cars that blatantly drive past the crash scene will be penalized or disqualified.

13.5.2 Cars stopping must stay off the inner apron and not block openings where emergency personnel or support vehicles respond from.

13.5.3 Cars entering the work area during a red flag condition that complete the work before the race is ready to resume will be allowed to restart at the rear of the lineup. Lineup will be in the order they return to the track.

13.5.4 Under red flag conditions: On a **"Closed Red"**, two (2) crewmen can attend to the driver, scrape mud off car and back down engines. **NO other work may be performed on the car. Violation will result in a disqualification.**

13.5.5 On an **"Open Red"**, The crew may work on the car on the track. If a tire is changed, the car must restart at the rear of the line up in front of any cars that went to the work area.

13.5.6 If fuel is added, the crew must have a **manned fire extinguisher** at the car and use an **anti-slosh funnel**. Violation of this will result in disqualification.

13.5.7 If a car is involved in an accident, only emergency personnel and **two** crewmen are allowed at the car until the driver has vacated.

13.5.8 Persons not directly involved with the car(s) involved in the accident must stay back. Violation of this will result in a fine.

13.5.9 When the "Clear the Track" command is given, all personnel must leave the track in a timely manner. Violation of this will result in the car being penalized to the rear of the line up or disqualification.

13.6 Black Flag

13.6.1 If a driver receives a black flag during an event, driver must enter work area for explanation. If driver does not go to work area, he will not be scored past that point.

13.6.2 Drivers that are black flagged for mechanical or safety reasons may return to the event once repairs are made and the track is open.

13.6.3 If a driver is black flagged and stops to create an intentional yellow, driver is subject to a penalty or fine.

13.6.4 A furred black flag will be a warning against on-track violations.
